

F3200 SERIES

F3200 Series – Technical Specifications

| | |
|--|---|
| Description | Linear storage system |
| Frame | 6060 Anodized extruded aluminium profile 80x30mm |
| Joint profile | 6060 Extruded aluminium profile 46x27mm |
| Metal plate | AISI430 1mm thickness with V-guide belt tracking |
| Sides | 1 anodized aluminium h60mm + 1 adjustable |
| Wheels | Revolving wheels with brake Ø80 |
| Idle and drive rollers | Aluminium 6060 Ø60mm, with side pit |
| Belt | PVC belt, max temp. 80°C in continuous, smooth surface, dark green colour, 1 side V-guide |
| Cleats | On request |
| Roller conveyor | roller Ø30mm, pitch 100mm |
| Drive | Direct on thrust |
| Asynchronous Motor | 3PH 4poli (1360rpm) IP55 with fan – 400Vac/50Hz |
| Power | 0,18KW |
| Gear box with permanent lubrication / Speed | i=1/40 - 6,5m/m // i=1/80 - 3,5m/m |
| Sensor | 1 photocell + refracting (to detect the box in the filling position) |
| Control box | Mod. TC130 |
| Fittings | Hand lifter with wheels to handle the machine |
