

## IQ4

# VERTICAL FALL – THROAT METAL DETECTOR

Gravity fed free fall systems for inspecting granules, powders or bulk materials to detect magnetic and non-magnetic contaminants. Ideal protection for moulding machines, extruders and granulators.

### **FEATURES:**

- **VARIABLE FREQUENCY:**  
for optimizing detection levels around a wide range of differing production conditions.
- **AUTO-LEARN:**  
for simple and fast product setup and can store up to 200 presets.
- **AUTO REJECTION**  
choice of sealed valve or cowbell reject devices.
- **SECURITY:**  
four password protected security levels are provided for operators, supervisors, engineering and administration.
